Excerpt: . . . of the Missouri Botanical Garden Vol. 9 SEPTEMBER, 1922 No. 3 A MONOGRAPHIC STUDY OF THELYPODIUM AND ITS IMMEDIATE ALLIES1 EDWIN BLAKE PAYSON Formerly Teaching Fellow in the Henry Shaw School of Botany of Washington University Associate Professor of Botany, University of Wyoming Introduction The present study was made with at least two objects in view; it was desired to continue investigations on the phylogeny of the Cruciferae and at the same time to attack a problem that would yield results of practical taxonomic value. These two objects, although distinct in their purpose, were of course very closely associated throughout the work. The taxonomy is but the expression of the phylogenetic conclusions. Recent studies in this family have emphasized the necessity of detailed examination of the various generic units before any general developmental theory is possible. The present author holds that there is no basis...
