Original publisher: Rockville, MD : Center for Drug Evaluation and Research : Center for Biologics Evaluation and Research, 1995 OCLC Number: (OCoLC)496287106 Subject: Drugs -- Testing -- Government policy -- United States. Excerpt: . . . differences found, that should be stated in the integrated summary update. . In addition, any new finding discovered during the preparation of the final, fully quality-assured individual study reports that could affect subject safety must be reported to FDA under 21 CFR 312. 32. Usually, 10 to 15 pages of text with additional tables (as needed) should suffice for the integrated summary. It should represent the sponsors perspective on the completed animal studies at the time the sponsor decided human trials were appropriate. Use of visual data displays (e. g. , box plots, stem and leaf displays, histograms or distributions of lab results over time) will facilitate description of the findings of these trials. The summary document should be accurate contemporaneously with the IND submission (i. e. , it should be updated so that if new information or findings from the completed animal studies have become known since the sponsors decision that the proposed human study is safe, such new information should also be included in the submitted summary). The integrated summary of the toxicologic findings of the completed animal studies to support the safety of the proposed human investigation should ordinarily contain the following information: a. A brief description of the design of the trials and any deviations from the design in the conduct of the trials. In addition, the dates of the performance of the trials should be included. Reference to the study protocol and protocol amendments may suffice for some of...
