CONTENT-BASED RETRIEVAL OF MEDICAL IMAGES: LANDMARKING, INDEXING, AND RELEVANCE FEEDBACK

Morgan Claypool, United States, 2013. Paperback. Book Condition: New. 235 x 190 mm. Language: English . Brand New Book. Content-based image retrieval (CBIR) is the process of retrieval of images from a database that are similar to a query image, using measures derived from the images themselves, rather than relying on accompanying text or annotation. To achieve CBIR, the contents of the images need to be characterized by quantitative features; the features of the query image are compared with the...

Reviews

This publication can be well worth a study, and far better than other. Better then never, though i am quite late in start reading this one. Its been printed in an exceedingly simple way and it is only soon after i finished reading through this book in which really transformed me, alter the way in my opinion.

-- **Miss Alisa Toy**

This is the very best ebook i have got study until now. This is for those who statte there had not been a worth reading. You can expect to like the way the writer write this book.

-- **Jeffrey Ritchie**

Absolutely among the best publication I have at any time go through. It is definitely basic but shocks from the 50 % of the book. I discovered this book from my i and dad advised this publication to find out.
