Electrical and Electronic Technology: The next book

By ZHENG ZONG YA / ZHENG ZONG YA ZHAO BING JIE XIE

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 246 Publisher: China Electric Power Press Pub. Date :2008-08. book has 12 chapters. including commonly used semiconductor devices. amplifier-based. multi-stage amplifiers and operational amplifiers. amplifier circuit in the feedback waveform circuit. power amplifier circuit. power circuit. the basic logic and gates. combinational logic circuit analysis. timing analysis of logic circuits. memory and its applications. the amount of analog and digital conversion. Electrical and Electronic Technology for the general higher education. Eleventh Five-Year Plan materials. The book is divided into two volumes. Book focuses on the technical knowledge of electrical points. The next volume is divided into 12 chapters. the main contents include commonly used semiconductor devices. amplifier-based. multi-stage amplifiers and operational amplifiers. feedback amplifier circuit in the waveform generation circuit. power amplifier circuit. power circuit. and basic logic gates . combinational logic circuit analysis. timing analysis of logic circuits. memory and its applications. the amount of analog and digital conversion. Electrical and Electronic Technology. in explaining the circuit but also an appropriate description of the application circuit. making the theoretical argument but also take into account the...

Reviews

This sort of publication is everything and made me seeking forward and much more. Better then never, though i am quite late in start reading this one. I am easily could possibly get a delight of reading through a created pdf.

-- **Quinton Balistreri**

A really amazing ebook with lucid and perfect answers. I am quite late in start reading this one, but better then never. You are going to like the way the blogger write this pdf.

-- **Prof. Bertram Ullrich Jr.**
